Designed in Norway

Crafted in Sweden

VinTeknikk is a leading supplier of complete wine room solutions, with specialized expertise in glass systems and technical components tailored to professional partners.

Through our proprietary product line, WineGuard, we offer dealers the market's most flexible and exclusive glass systems for wine rooms. The series has been developed with a strong focus on quality, aesthetics, and technical precision – providing a solid foundation for delivering unique and long-lasting solutions to end customers.

As a partner, we emphasize reliability, high-level expertise, and a broad product range that makes it easier to deliver complete projects.

Tor-Arne Borg

Managing Director of Vinteknikk AS, Tor Arne brings extensive experience from the glass and wine room industry. With a clear vision and strong technical expertise, he has positioned Vinteknikk as a specialist in exclusive wine rooms and the developer of the premium WineGuard glass system series.

Karl Andreas Anker Grundvig

As Showroom Manager at Vinteknikk AS, Karl Andreas plays a key role in presenting the company's solutions. With solid product knowledge and an eye for design, he ensures that both customers and partners experience Vinteknikk's commitment to quality and technical precision.

THE PRODUCTS: WINEGUARD SLIDE

Optimize the space in your wine room with *WineGuard Slide*, our sleek sliding door system. Featuring precision-engineered tracks and elegant design, this system provides easy access to your wine room while creating an exclusive, modern frame. Perfect for those who want a practical yet aesthetic solution for their wine collection.

01

WineGuard Slide is available with a wide range of glass options

- Clear double-glazed energy + argon – timeless and elegant

- Double door options
- Heights up to 250 cm – impressive dimensions for a grand design
- Width up to 130cm
- Custom options available – tailored to your specific project needs

Available with a wide selection of special handles, carefully specified by Vinteknikk to combine functionality with exclusive design. This allows you to tailor the WineGuard system to match both style and personal preference.

04 Handles

- Vinteknikk-specified handles – carefully selected for quality and design
- Exclusive handle collection – from classic to modern expressions
- Custom finishes available – to match the chosen profile color

05 Locks

- Cylinder lock only
- Brass, black and steel finish available

*«Elegance in glass,
excellence in wine.»*

THE PRODUCTS: **WINEGUARD ANGLE**

WineGuard Angle is the only angled hinged glass door on the market, created to master the most challenging spaces such as staircases and sloped ceilings. With bespoke precision and uncompromising craftsmanship, this innovative solution transforms otherwise unused areas into architectural highlights. Seamlessly combining function, exclusivity, and design freedom, WineGuard Angle proves that no space is beyond the reach of refinement.

01 WineGuard Angle is available with a wide range of insulated glass options

- Clear double-glazed hardened energy + argon isolated – timeless and elegant
- Smoked glass – minimizes glare and provides an exclusive and toned look
- Laminated clear double-glazed energy glass with argon gas – Blocks up to 99% of harmful UV radiation
- Specialty glass – custom options to suit individual design needs

02 The colors and finishes

- Matte black profile – standard finish, elegant and timeless
- Custom RAL colors – tailor the system to any architectural style

03 Sizes and door configurations

- Angled with hinges on the lower part
- Heights up to 220cm
- Width up to 100cm
- Max 45°
- Custom widths available – But within spec as on drawing

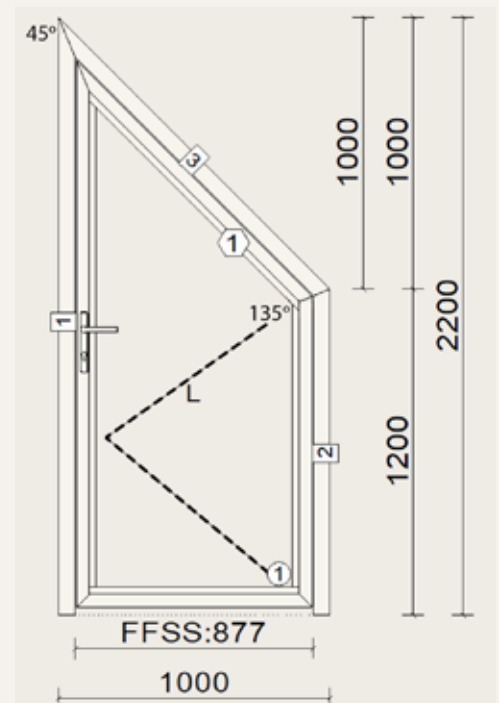

04 Handles

- Vinteknikk-specified handles – carefully selected for quality and design
- Exclusive handle collection – from classic to modern expressions
- Custom finishes available – to match the chosen profile color

05 Locks

- Cylinder lock only
- Brass, black and steel finish available

WineGuard Angle provides full functionality where standard doors cannot. Its angled hinged design ensures smooth operation, airtight sealing, and a bespoke fit tailored to any architectural challenge.

THE PRODUCTS: WINEGUARD FIXED

WineGuard Fixed forms the very foundation of our glass systems for wine rooms. The fixed panels create a clean and exclusive expression while providing a stable frame for the overall design. With precision-tailored dimensions, refined profiles, and the option of specialty glass, this solution combines aesthetics, functionality, and technical perfection. WineGuard Fixed can easily be combined with other WineGuard systems to create a seamless and fully customized wine room.

WineGuard

HANDLE OPTIONS

WineGuard offers a curated selection of premium handles — from sleek minimalist designs to statement pieces in exclusive finishes. Each handle is carefully specified by Vinteknikk to complement the elegance of the glass system and to give every wine room a truly personal touch.

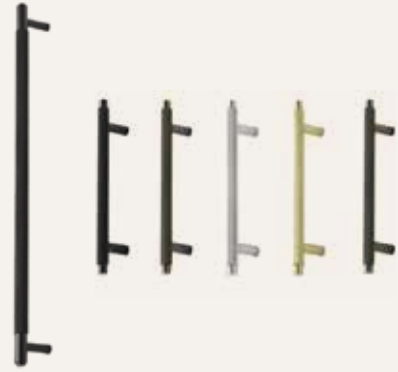

WG STANDARD

The WineGuard Standard Handle distinguishes itself with perfectly balanced vertical lines and timeless elegance.

Length – 500mm and 980mm

Available in six captivating finishes — from refined matte black to serene midnight blue — this curated palette offers a wide range of possibilities. Each shade contributes its own distinct character, adapting seamlessly to diverse interior projects while reflecting the latest design trends.

WG 1 UP

In collaboration with Vinteknikk, LoveHandles has selected handles from the Copenhagen series.

Length – 500mm

This exclusive collection is crafted from solid brass and features a refined serrated surface for both elegance and grip.

The series is available in a range of sophisticated finishes: Antique Brass, Brushed Brass, Gun Metal, Brushed Steel, and Black.

WG Imitated Leather Handle – Chelsea Series

The Chelsea series is a durable line crafted in imitation leather and stainless steel. Each handle is both glued and stitched to ensure robustness and long-lasting strength, preventing the leather from loosening at the fittings.

Length – 500mm

Chelsea is available in Beige, Blue, Black Pearl, Black Braided, and Brown Braided finishes, with fittings in either Chrome or Brushed Brass. The full series is also offered in Black Braided leather with Antique Brass fittings

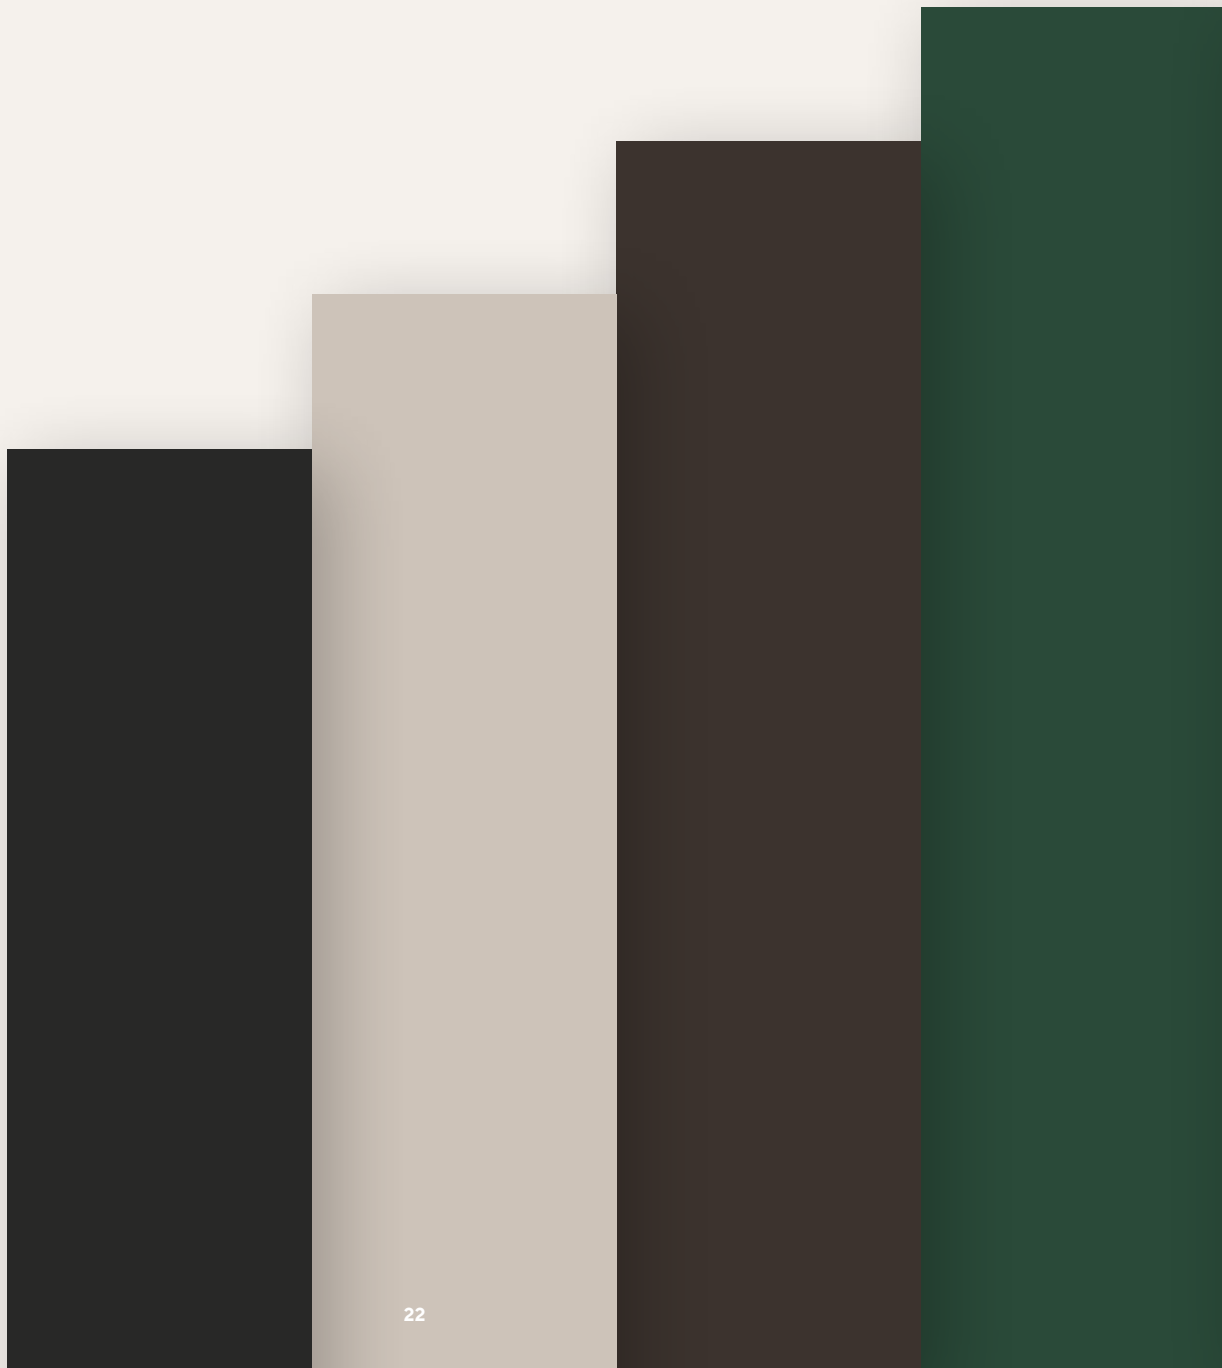

WG x Kaja Handle – Inspired by Timeless Design

The Kaja handle is inspired by our best-selling Oslo Antique Brass series and re-imagined in collaboration with Kaja. This bolder edition is crafted from solid brass with a beautifully serrated surface, combining strength with refined detailing.

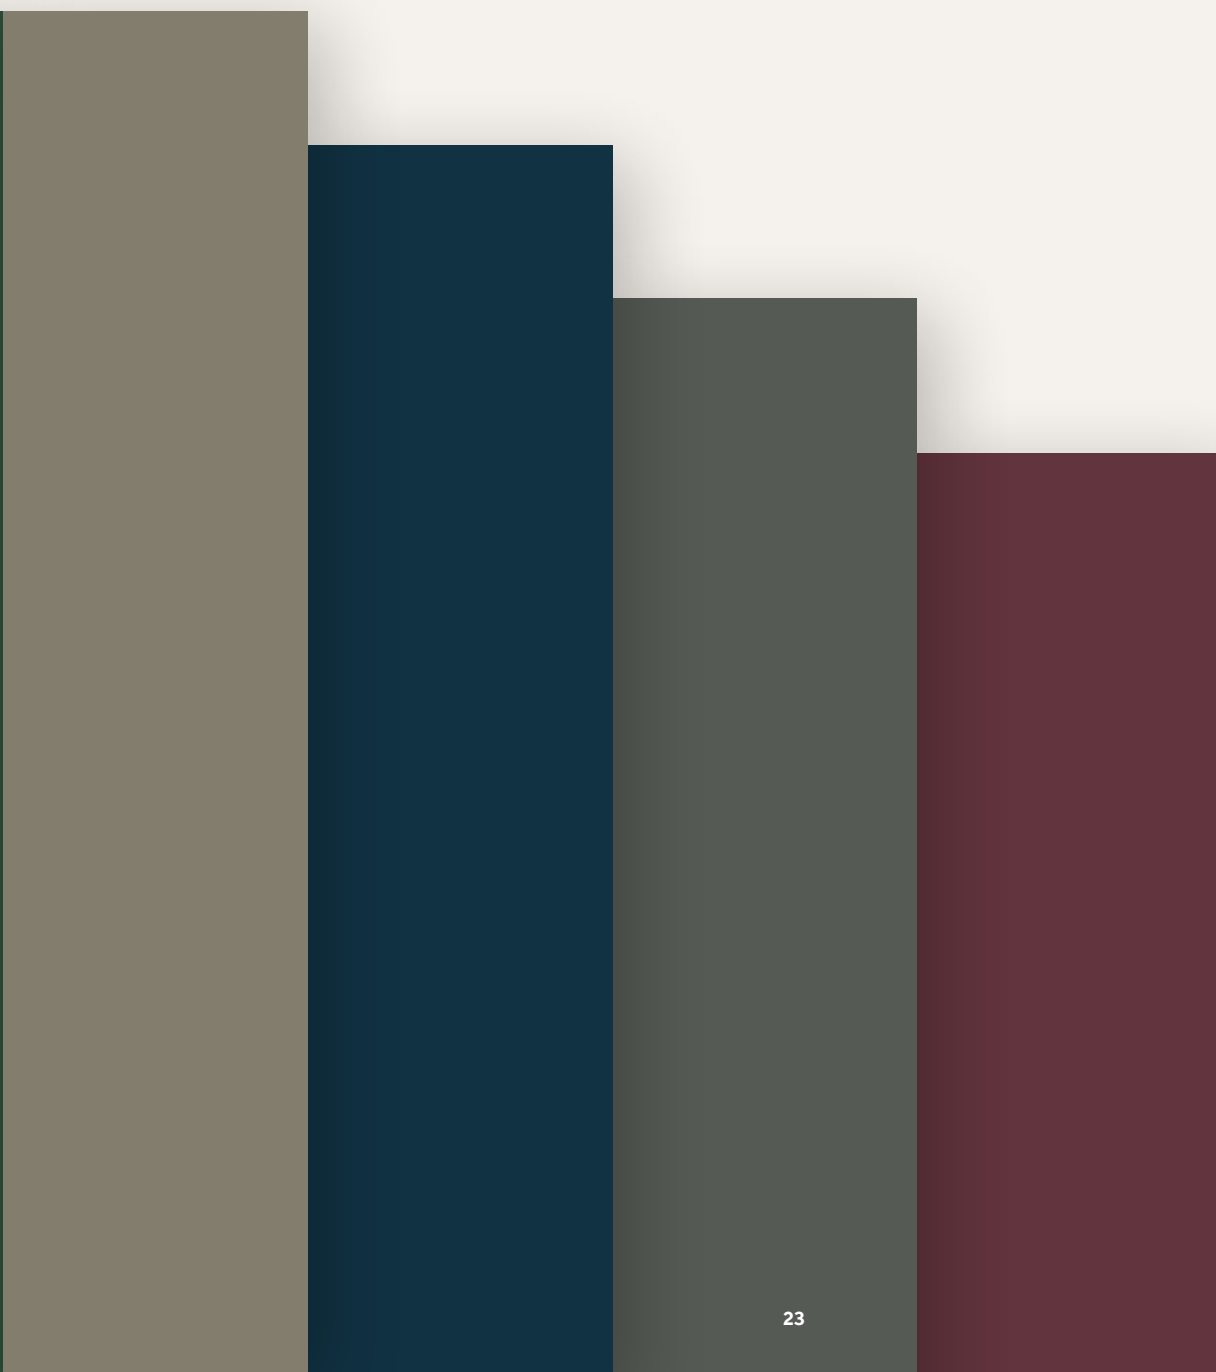

Length – 400mm and 1200mm

Available in Gunmetal Grey and Antique Brass, with fittings in either Brushed Brass or Antique Brass, the series offers three sizes. Please note that the XXL version weighs 3.5 kg and requires solid doors for proper installation. Exclusively produced in limited quantities, these unique handles are true collector's pieces.

The new standard

The new standard

WineGuard represents a breakthrough in glass solutions for wine rooms, setting a new benchmark for both quality and design. Every detail is developed with a focus on technical performance, durability, and aesthetics. With superior insulation, airtight profiles, and a wide range of customization options, WineGuard ensures the perfect environment for wine preservation while adding an exclusive architectural expression. More than just a glass system, WineGuard defines the future of wine room design — where craftsmanship meets innovation.

1

Choose Your Signature Design

Begin by selecting the WineGuard system that best reflects your vision. Elegant sliding doors, timeless hinged doors, bold angled solutions, or the frameless purity of WineGuard Pure. Every choice is a statement of style — from glass finishes to exclusive handles and bespoke colors.

2

Tailor the Technical Masterpiece

Your wine room is shaped to perfection through customization. Dimensions, glazing options, insulation, and refined details such as locks and seals are carefully orchestrated to create the ideal climate and atmosphere. Every element is engineered for precision, performance, and beauty.

3

Deliver & Install Excellence

Vinteknikk provides a fully specified, plug-and-play system, meticulously crafted and ready for seamless installation. The result is more than a functional wine room — it is an architectural centerpiece, a sanctuary for your collection, and a testament to uncompromising quality.

Beyond the standard – WineGuard special creations

In addition to its core systems, WineGuard offers a collection of exclusive innovations that push the boundaries of design and functionality. These unique solutions are tailored for extraordinary spaces, where wine storage becomes both an architectural highlight and a statement of individuality.

WineGuard Floor is an exclusive walk-on glass hatch that transforms wine storage into a dramatic architectural feature. Flush with the floor and crafted with uncompromising precision, it opens at the touch of a button to reveal your collection in stunning fashion. Integrated motor plug and play

With robust construction, airtight sealing, and customizable glass and frame options, WineGuard Floor is both a technical innovation and a design statement — discreet when closed, breathtaking when revealed.

WineGuard Industry is an exclusive glass system inspired by classic wrought iron design, delivering a strong architectural presence with refined detailing. Its black-framed profiles and elegant grid pattern create an unmistakable industrial aesthetic, perfectly suited for wine rooms that demand both character and exclusivity.

Available as sliding doors, hinged doors, and fixed panels, WineGuard Industry combines technical precision with timeless style — a solution that is as functional as it is iconic.

“High Insulated. Highly Refined.”

WineGuard HI is our new high-insulated glass system, developed for extreme conditions.

It combines advanced thermal engineering with the timeless design language of the WineGuard series.

*«Storage is the silent partner
in every great bottle.»*
